

# ELECTROMECH TECHNICAL SERVICES

"To completely satisfy the customer's demands with quality, time bound commitments and best prices in industry, using our expertise in the field of engineering with proven standards."

**With our full fledged manufacturing and designing facilities, we offer a complete range of Discharging Equipments.**

Our discharging equipments are perfect suite silo discharge, pneumatic conveying, precision metering, furnace discharge, hopper discharge, fly ash conveying, and much more.

Our equipments are mainly used in pneumatic conveying, in diverse industrial applications like in steel plants, cement plants, power plants, pulp and paper mills, sugar mills, mines, process plants, dairy & food industries, air pollution control, petrochemical, Pharma and others.

**Drop Through Airlocks:-**  
Loading directly from top side and conveying side at bottom / below.  
**Specially Designed for pneumatic conveying.**

## Rotary AirLock Valve

**Multi Duty Airlocks:-**  
For Universal Applications

**High Efficiency Airlocks:-**  
For continuous On stream Duty  
**Added Feature:-**  
Applicable where adjustable tip-bore tolerance is to maintain.

<b>From Temperature Material</b>	<b>25 mm to Custom Made sizes</b> <b>Up to 1200° C</b> <b>MS,CI,Al,SS,Cast Alloys</b>	<b>Custom Airlocks:-</b>	<b>Self cleaning tips Airlocks</b> <b>Blow Through Airlocks</b> <b>Side entry Airlocks</b>
----------------------------------	---	--------------------------	--

# Leading Manufacturer of Discharging Equipments

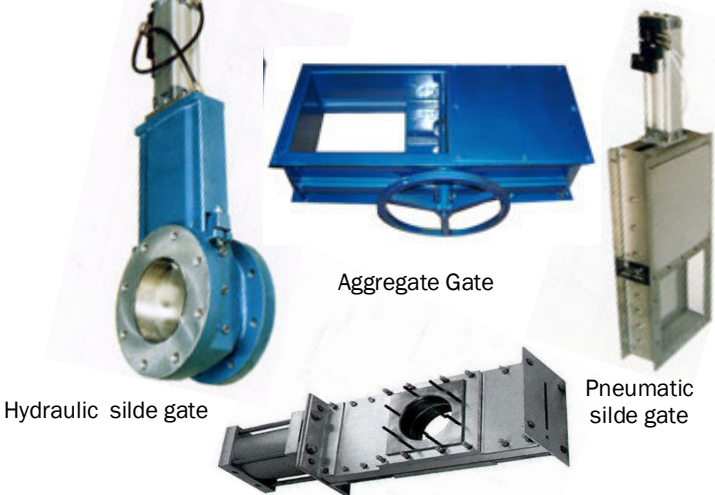

## Flap Valve

Single Flap Valve

Double Flap Valve

## Slide Gates / Control Gates

Hydraulic silde gate

Aggregate Gate

Pneumatic silde gate

<b>From Temperature Material</b>	<b>100 mm to Custom Made sizes</b> <b>Up to 1300° C</b> <b>MS,CI,Al,SS,Cast Alloys</b>
<b>Custom flap Valves:-</b>	
<b>Pneumatically Operated</b>	
<b>Hydraulically Operated</b>	
<b>Electric Motor Opearated</b>	

<b>From Temperature Material</b>	<b>50 mm to Custom Made sizes</b> <b>Up to 1300° C</b> <b>MS,CI,Al,SS,Cast Alloys</b>
<b>Custom Slide Gates:-</b>	
<b>Pneumatically Operated</b>	
<b>Hydraulically Operated</b>	
<b>Electric Motor Opearated</b>
